Our Mission: To be a leader in globally recognizing, honoring and fostering innovation and innovators to create a positive impact in the world.

Company Overview
The Edison Awards™ is an annual competition designed to honor excellence in new product and service development, marketing, human-centered design and innovation. Winners represent “game changing” products, services, excellence and leadership in innovation around four criteria: Concept, Value, Delivery and Impact.

Started in 1987, The Awards are named after inventor Thomas A. Edison and symbolize the persistence and excellence in innovation as personified by him.

The Value of an Edison Award
Award winners gain broad national recognition and significant market visibility through the publicity their award generates. The annual event draws hundreds of fellow innovators into a nexus of powerful networking opportunities.

Winners broadcast their award-winning status to the business media and promote their innovation to their audiences by using the Edison Awards seal. As companies ranging from startups to Fortune 500 feature the Edison Awards seal, the Edison Awards brand makes millions of impressions worldwide.

The Power of 3rd-Party Validation
An unbiased review by a network of industry experts, business executives and academics provides a 3rd-party validation that delivers an affirmation of superior quality — a confirmation that can reach customers in a way that marketing and advertising cannot. Receiving an Edison Award is one of the most prestigious accolades honoring excellence in new product and service development.
